

To the Fairfax County School Board
County of Fairfax, Virginia

In planning and performing our audit of the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Fairfax County Public Schools ("FCPS"), a component unit of the County of Fairfax, Virginia, as of and for the year ended June 30, 2021, in accordance with auditing standards generally accepted in the United States of America, we considered the FCPS' internal control over financial reporting ("internal control") as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the FCPS' internal control. Accordingly, we do not express an opinion on the effectiveness of the FCPS' internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control was for the limited purpose described in the first paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This information is intended solely for the use of the School Board and management of the FCPS and is not intended to be, and should not be, used by anyone other than these specified parties.
