SCORE REPORT LETTER Additional Diagnostic Assessment Results

Dear Parents and Guardians:

On the Fairfax County Public Schools (FCPS) Virginia Kindergarten Readiness Program, iReady, or Math Inventory/Reading Inventory Score Report, you saw a summary of your student's universal screener performance for reading and mathematics. Based on your student's academic screener scores, school staff needed more information about his or her strengths and areas for growth. As a result, your student was administered an additional assessment to help teachers better understand specific learning needs. School staff review these and additional data points to determine if interventions are needed.

Γhe addi	tional assessments administered to your student are checked in the list below.						
	CORE Phonics Survey						
	Phonological Awareness Skills Screener (PASS)						
	Passage Reading Fluency (For grades 4-6) Addition and Subtraction						
	Counting						
	Multiplication and Division						
	Place Value						
	Fractions						
	Other:						
	ou will find notes from your student's teacher describing any important information learned the additional diagnostic assessment(s) checked above.
