

Cell Phone Pilot Items: Students

Introduction

FCPS wants to hear from you! FCPS is interested to learn about how school is going for you this year, especially your school's rules about electronic devices and new approaches to managing cell phones. The information will help FCPS decide what is working well or not working well.

You should be able to answer today's questions in about 5-10 minutes. This student survey is confidential, which means only FCPS' research staff has access to your answers in our secure platform. No one at school will have your answers to the survey. The only time FCPS' research staff will share your individual answers is if the law requires it. For example, if you write about anyone hurting you or someone else, your answer would need to be shared.

If you answer one of the questions, we will assume you want to take part in this survey. All questions are optional, so you may skip any questions that you are not comfortable answering.
