

## Introduction

### Student Experience Survey

FCPS wants to hear from you! FCPS is always working to improve our schools for our students and an important part of that is understanding your experience as a student. Students also told school leaders they wanted the opportunity to tell more about their experiences at school. FCPS is providing a Student Experience survey to understand how students view and experience school.

You should be able to answer today's questions in about 30 minutes. This survey is confidential, which means only FCPS' research staff has access to your answers in our secure platform. No one at school will have your answers to the survey. The only time FCPS' research staff will share your individual answers is if the law requires it. For example, there aren't a lot of questions where you are asked to write a response, but if you write about someone hurting you, hurting yourself, or you hurting someone else, your answer would need to be shared.

If you answer one of the questions, we will assume you want to take part in this survey. All questions are optional, so you may skip any questions that you are not comfortable answering.
